## **Addendum #1**

### **POLICE COMPUTERS, EQUIPMENT AND INSTALLATION**

March, 2018

Addendum #1 is hereby released to the changes listed below.

Add to Page 1 of the Bid Package:

The changes are as follows:

Sealed proposals for the purchase and installation of Police Computers and Equipment Package will be received at the address listed below until **March 20, 2018 at 10:00 a.m.** Proposals will be publically opened and read aloud at the above stated time and place. Proposals not physically received by the Village by **10:00 a.m. on March 20, 2018** will be returned, unopened to the firm.

Throughout the RFP, any reference to the bid opening scheduled on March 8, 2018 at 10AM is hereby changed to reflect the new bid opening date of **March 20, 2018 at 10AM.**

#### Questions with Answers - Bid Clarification

- Q: Project Specifications, Base Bid Package #1, part A – request is for “Havis DS-PAN-422-2-P” docking stations. However, since the Village will be using the Cradlepoint routers with their laptop solution, the ability to have external antennas as designated in that part number is unnecessary. Would you consider bids for part DS-PAN-422-P instead?
- A: Please bid Part# DS-PAN-422-P in addition to the listed part # Havis DS-PAN-422-2-P.
- Q: Bid Sheet, Base Bid Package #1 and #2 – both of these sections include space for pricing for the compatible vehicle docking station. Should dock pricing be duplicated, once in each section, or can it be left out of the “All Vehicles” portion of Bid Package #2?
- A: Please duplicate your pricing in each section if you are in fact bidding on the computers as well. Do not provide pricing for the docking station in Package #1 if you are not bidding computers.
- Q: With the IBR900-600M Solutions Pack, did the Village want that in a 1, 3 or 5 year term? The year will pertain to the length of time the NCM and Cradlecare support lasts, as well as the warranty.
- A: A 3 year warranty term is recommended but quotes will be accepted on all 3 terms.
- Q: I understand that 4 extensibility docks are desired for the hot seat cars. Does the village want the extra radio module and antennas for those 4 docks, or will that be purchased at a later time?
- A: The Village will purchase these at a separate time.

Q: Havis part: C-TMW-F150-01 is discontinued, is there a replacement part number?

A: Part # C-TMW-F150-02. An updated bid sheet is attached.

Q: Does the Village require a Bid Bond?

A: The Village will not be requiring a Bid Bond for any of the Bid Packages

Q: Does the Village require a Performance Bond?

A: The Village will require a Performance Bond from the vendor that is awarded the contract for Bid Package #3, the installing contractor.

Q: Quick question on the imaging, are you looking at having an image Oswego built applied to the device or a vendor coming in and building the image for you?

A: The Village will have the image built and send it for distribution to the vendor that has been awarded the Contract for Bid Package #1

Q: Do you know if you are using Net Motion for the PD computers?

A: NetMotion will be implemented with the finalization of this RFP project.

Q: Antenna questions: White or Black Color? Threaded Bolt Mount or Adhesive Mount?

A: Antenna should be black in color. If the adhesive mount can withstand the Illinois weather we would prefer this method of installation. Please quote both mounting options.

Vehicle #20 - 2016 Ford INUT

Description	Havis Part #	MSRP	% Discount	Unit Price
Console	C-VS-0810-INUT-PM
