

Sump / Down Spout Connection Permit

Check List:

1. Yes No Is there a storm sewer in place on the property for a sump line connection to be made? (If unclear whether a storm sewer is in place, please contact the Community Development Department to verify whether a storm sewer system is available).
2. Yes No Has the contractor registered with the village?
3. **Note:** An inspection is required to be scheduled 24 hours in advance and before the sump line is backfilled. **Please** contact the Community Development Project Coordinator at 630-554-3622 to schedule an inspection.
