3. CHANGES:

4. ADDITIONS:

5. DELETIONS:

6. SCHEDULE:

7. CLARIFICATIONS:

   a. **Question**: On the bid sheet, there are spaces in the pricing for “1.5”, 2”, 3” and 4” meter installation including radio unit and meter couplings”. Immediately after those four lines there are four more lines for “Additional price for meter flange replacement for 1.5”, 2”, 3” and 4” meters”. One of these sets of pricing spaces must be incorrect and my thought is that the first four spaces asking for install labor pricing for the 1.5”, 2”, 3” and 4” meters is incorrect in also asking for the labor cost to install couplings as maybe that installation labor pricing should be for the cost to install the meters ONLY. If so, then the next four spaces below them asking for the additional labor cost to install new flanges/couplings for the 1.5”, 2”, 3” and 4” meters would make sense, otherwise they are redundant. Would you please provide an explanation of what components the Village is looking for in each of those spots?

   **Response**: For the 1.5”, 2”, 3” and 4” meters the pricing should be for the “Meter install including Radio Unit” There are no couplings for these meters. That is why we have a separate space for meter flange replacement.

   b. **Question**: Further down the bid sheet there is a spot for “Additional price to install new ground wire around meter”. Is this request a cost for the installation labor portion only as the Village will supply the contractor with the installation supplies needed (ground wire cable and clamps) or is this a material and labor price as the contractor will need to supply the ground wire cable and clamps AND the installation labor?
Response: Additional price to install new ground wire around meter “this includes parts and labor” the Village is not providing the ground wire or clamps.

8. ACKNOWLEDGMENT

The Bidder acknowledges receipt of this Addendum and understands its content to the Bid Documents.
