# INTRODUCTION

## Street Sweeping Services

### Purpose of Request:

The street sweeping contract has three primary goals:

1. Improve water quality by reducing pollutants in stormwater runoff: The 2017 Stormwater Master Plan Update identified street sweeping as a key activity for the operation and maintenance of the Village's stormwater system. Street sweeping is recognized as a Best Management Practice (BMP) as part of the National Pollutant Discharge Elimination System (NPDES) requirements that apply to the Village with respect to stormwater. Streets and parking lots accumulate pollutants that contribute to stormwater pollutant runoff to surface waters. Pollutants, including sediment, debris, trash, road salt, and trace metals can be minimized by street sweeping. Street sweeping can also improve the aesthetics of municipal roadways, control dust and decrease the accumulation of pollutants in catch basins.
2. Remove leaves and tree debris from the right-of-way. The fall sweeping occurs from mid-October through early December on Village streets. The fall sweeping cleans the streets of leaves and tree debris that fall naturally into the street.
3. Improve the appearance of the Village streets: Village streets and streets within the downtown are swept on a regular cycle to remove litter and other debris.

### Project Description:

The Village is requesting bids for street sweeping service throughout the Village of Oswego limits according to the specifications contained herein. The Village has approximately 288 miles of curbed streets that are to be cleaned. The Contractor shall perform sweeping services three (3) times per year and each sweeping cycle shall take no more than five (5) days to complete.

## PROJECT SPECIFICATIONS

5. **Insurance Requirements:** The Contractor will provide satisfactory proof of insurance naming the Village of Oswego, together with its officers, agents, employees and engineers as additional primary, non-contributory named insureds prior to commencing work. All policies shall be written on a "per occurrence" basis. The Contractor shall procure and maintain insurance for protection from claims under worker's compensation acts, claims for damages because of bodily injury including personal injury, sickness or disease or death of any and all employees or of any person other than such employees, and from claims or damages because of injury to or destruction of property including loss of use resulting therefrom, alleged to arise from the Contractor's negligence in the performance of services under this Agreement. Contractor's certificate of insurance shall contain a provision that the coverage afforded under the policy(s) will not be canceled or reduced without thirty (30) days prior written notice (hand delivered or registered mail) to the Village. Contractor shall promptly forward new certificate(s) of insurance evidencing the coverage(s) required herein upon annual renewal of the subject policies. Failure of the Engineer to supply a valid certificate of insurance, or if a previously valid certificate of insurance has expired and is not replaced, is grounds for issuance of a stop work order until such

time as a valid certificate of insurance is provided. Failure of the Village to collect or demand a certificate of insurance shall not be deemed a waiver of the requirement to provide one. The limits of liability for the insurance required by this Subsection shall not be less than the following:

All Liability imposed by Workmen’s Compensation statute

Employer’s Liability Insurance	\$1,000,000

The liquidated damages for failure to complete the contract on time are approximate, due to the impracticality of calculating and proving actual delay costs. This schedule of deductions establishes the cost of delay to account for administration, engineering, inspection, and supervision during periods of extended and delayed performance. The costs of delay represented by this schedule are understood to be a fair and reasonable estimate of the costs that will be borne by the Village during extended and delayed performance by the Contractor of the work. The liquidated damage amount specified will accrue and be assessed until final completion of the total physical work of the contract even though the work may be substantially complete.

The Village will deduct these liquidated damages from any monies due or to become due to the Contractor from the Village.

Deduction for Each Day of Overrun in Contract Time: \$750.00 per day.
