GENERAL INSTRUCTIONS FOR A TEMPORARY SWIMMING POOL PERMIT

Need To Submit:

1. Completed accessory structure permit application.
2. Completed pool permit checklist.
3. Completed swimming pool requirement worksheet.
4. Plat of survey showing the distance from the pool to the primary structure and all distances from the pool to adjacent lot lines. Also, the location, type and size of the existing or proposed fence shall be shown on the plot plan or survey.
5. Provide information in regards to the pool, the pool pump, the pool heater and any other devices associated with the install and use of the pool and equipment.

Definitions.

Swimming Pool - Any structure intended for swimming or recreational bathing that contains water over 24 inches deep.

*Temporary Swimming Pool - A swimming pool constructed to be disassembled and reassembled to its original integrity on a seasonal basis (5 months or less).

* Temporary swimming pool permits are valid for 5 months from issue date and only valid for the swimming season of that calendar year.

Location* Swimming pools shall be located a minimum of 10 feet from the primary structure, measured from the wall of the swimming pool. Swimming pools shall not be permitted in front yards. Swimming pools shall not be located on or in any easement. Swimming pools shall be located a minimum of 5 feet from any property line. Swimming pools shall not be located under any overhead utility wires. Swimming pools shall not be located over or within 5 feet of any underground utility wires.

Electric* All electric to the swimming pool shall be protected by ground fault circuit interrupters, which shall be GFCI receptacle outlets or GFCI circuit breakers. All electric shall be in approved conduit. All underground electric shall be inspected prior to burial. Receptacles, not serving swimming pool equipment, shall be located a minimum of 10 feet from the swimming pool wall. All receptacles shall have a weatherproof enclosure whether or not the receptacle is being used. All swimming pool equipment shall be properly grounded. Underground wiring shall be a minimum of 5 feet from the swimming pool walls. For in-ground swimming pools all metal parts on or in the ground within 5 feet of the swimming pool walls shall be bonded. An extension cord is not an acceptable means to supply power to the swimming pool pump.

Barrier* Swimming pools with the top of the wall less than 48 inches above the surrounding grade shall be enclosed with an approved barrier at least 48 inches in height. Aboveground swimming pools, which have walls or a wall mounted barrier system that meet the height requirement, shall have steps or a ladder capable of being secured, locked or removed to prevent access.

*The instructions and guidelines listed above are only a general outline for swimming pool requirements. A more detailed list of requirements is available from the Village of Oswego Building Department.
